Attn: R. H. Birk

REVISIONS TO THE FINAL OPERABLE UNIT NO. 6 (OU 6) WORK PLAN AND INCORPORATION
OF TECHNICAL MEMORANDUM 1 - MBA-0485-92

Enclosed are the sections of the Work Plan which were changed either in response to Colorado Department of Health (CDH) comments or as a result of the OU 6 project manager's edits. All the changes may be reviewed by examining the attached original and edited versions of Technical Memorandum 1. Technical Memorandum 1 has been rescinded; the contents are incorporated into the Work Plan.

Among the edits are the number of sample points which were incorrectly shown on Figures 7.1 and 7.6. Additionally, the radiation survey in Individual Hazardous Substance Site 143 (Section 7.2.3) has been deleted, as approved verbally by the agencies and documented in the EG&G Rocky Flats, Inc. (EG&G) letter to R. M. Nelson dated April 3, 1992.

EG&G will not provide EPA or CDH with the original and edited versions of the Work Plan unless directed to do so by DOE. The Work Plan will be used to implement field operations beginning August 1, 1992. If there are any questions concerning the changes please contact P. J. Laurin of Remediation Programs at extension 8702.

M. B. Arndt, Acting Director
Environmental Management
